DYNAMIC CURRENCY CONVERSION

In certain countries, the acquiring banks may choose to activate the feature of 'Dynamic Currency Conversion' on their ATMs and POS machine network. As per this facility, the ATM / POS machine identifies the Travel Currency Card as a Card issued from a foreign country, and prompts the customer to transact in their 'home currency' (in case of Indians, this would be Indian Rupees). If a customer selects the 'home currency / INR' option, additional cross-currency charges are levied by the acquiring bank (the bank that runs the ATM / POS machine).

We urge you to note that as the Travel Currency Card is purchased and loaded with the purpose of using the Card in the respective foreign currency, the customer must avoid selecting any option that prompts for a change in usage currency, to avoid any adverse exchange rate. The 'dynamic currency conversion' feature may appear with differing terminology,

Axis Bank is not responsible for any 'dynamic currency conversion' related charges, and will not be able to refund any such charges, in case they are levied on account of wrong
